BESPOKE

This document is intended for school leaders and other education professionals (such as agents, academic advisors, career counsellors, programme coordinators) who are involved in designing and facilitating bespoke educational programmes for groups and individuals. It provides guidance for tailoring learning experiences to meet the specific goals and aspirations of your students.

ProEd's approach is built on understanding that every student group is different. We will work closely with you to design every aspect of the course, ensuring it is customised to your specific needs and requirements, by blending academic excellence with flexibility.

PROGRAMMES

MADE FOR YOU

CLOSED GROUPS

YOU BRING YOUR GROUP TO THE UK

- Fully hosted by ProEd at prestigious universities and boarding schools
- Includes accommodation, meals, and full programme delivery

**Starting from £850.00 per week (subject to minimum numbers)*

Design your own course with ProEd.

Each course is designed with a range of key considerations to meet your specific needs. Use the form below as a starting point to begin designing your customised course.

Submit the completed form to info@proedetail.com. A member of our team will be in touch to arrange a no obligation consultation call and discuss the next steps.

STUDENT AGE GROUP

Age 12-15 years: Programmes designed for early career exploration and skill-building.

Age 16-18 years: Advanced programmes focusing on career insights, university preparation, or in-depth research.

Age 18+: Premium university preparation programmes.

LOCATION

Closed groups UK (residential): Students experience immersive residential programmes in the UK's top academic settings (Imperial College London, Oxford, Cambridge, Top boarding schools).

Global insights Overseas: ProEd sends its professional teams to your institution for on-site delivery.

Winter programmes e.g. Australia

Online: Interactive virtual sessions designed to suit various schedules.

PROGRAMME OBJECTIVES

Exploration: Broad overview of multiple career fields. This option is most suitable for younger audiences.

Career preparation: Intensive lectures and hands-on experience for competitive career paths.

Industry experience: Real-world exposure to professional environments through workshops, site visits, and interactions with industry experts.

University preparation: Guidance on admissions, course selection, academic skills development, interview preparation.

Research Programme: Designed for students pursuing in-depth study in specific fields like medicine, engineering, social sciences, history and others. Most suitable for online delivery as a combination of one-to-one and small group teaching.

DURATION

One week: An intensive and focused programme delivering maximum learning impact in a short timeframe.

Two weeks: A comprehensive and immersive experience, this is our flagship programme designed to deliver in-depth career insights, complemented by interactive workshops and skill-building sessions.

Weekend: Suitable for larger audiences in conference format or as an intensive course for a smaller group.

Online groups: Delivered as a one-off intensive course or spread over a longer period through regular sessions.

Online one-to-one: Premium coaching for those seeking personalised support. Popular option for older students looking to develop and implement an individualised university application or re-application strategy.

SUBJECT AREAS

Taster of various subjects: Ideal for younger students exploring potential career paths through a broad, engaging overview.

Life Sciences (Medicine, Biological Science, Veterinary Medicine, Biomedical Science, etc.)

Physical Sciences (Physics, Chemistry, Mathematics, Engineering, Astronomy, etc.)

Social Science and Commerce (Economics, Psychology, Business, Political Science, Finance etc.)

FOCUSED SUBJECTS

Engineering

Medicine

Economics

Law

Psychology

Computer Science

Academic + English Language: For students with lower English proficiency, combining academic subject exploration with English language development.

Other career (e.g. Vet Med, etc.)

HOW IT WORKS

CLOSED GROUPS GLOBAL INSIGHTS

- 1. Understanding your needs** – We begin with a consultation to explore your students' goals, interests, and learning requirements. Use the form on the next page to select the customisable course components that best suit your needs.
- 2. Programme design** – Our team creates a tailor-made programme based on your chosen elements, including subject focus, delivery method, duration, and budget considerations.
- 3. Implementation & Support** - Once the programme design is finalised, we coordinate all aspects of delivery—whether residential, online, or overseas.

EXAMPLE PROGRAMMES

The example programmes below are provided for illustration purposes only and showcase the range of possibilities available. Our customisable options allow us to design a programme tailored specifically to your requirements. Prices will vary depending on your exact course specifications.

EXAMPLE PROGRAMME 1:

- Programme objective: Broad overview of multiple career fields. Designed for younger students who are beginning to explore their future career options, delivered through flexible online sessions on alternate weekends to suit their schedules.
- Number of students: 20
- Student age group: 12–15 years (available to other age groups)
- Location: Online delivery
- Duration: Alternate weekends

EXAMPLE PROGRAMME 3:

- Programme objective: A combination of academic subject exploration and English language improvement, designed to help students assess their readiness for further study in the UK. Includes cultural immersion activities and guidance on studying in the UK.
- Number of students: 20
- Student age group: 14–16 years (available to other age groups)
- Location: Top UK boarding school
- Duration: Two weeks

EXAMPLE PROGRAMME 5:

- Programme objective: One-to-one premium coaching tailored to the client's specific goals, including application strategy, interview preparation, essay writing.
- Number of students: 1 (VIP Client)
- Student age group: 17 years (available to other age groups)
- Location: Online
- Duration: Customised to client's needs

EXAMPLE PROGRAMME 2:

- Programme objective: Career preparation (STEM). Focused, immersive experience, equipping students with practical skills and insights into their chosen career paths.
- Number of students: 10
- Student age group: 16–18 years (available to other age groups)
- Location: Overseas school site
- Duration: One week

EXAMPLE PROGRAMME 4:

- Programme objective: Intensive university preparation and career development with industry experience, CV-building workshop and skill-based sessions to strengthen the students' university application.
- Number of students: 30
- Student age group: 16–18 years (available to other age groups)
- Location: Top UK University + industry sites
- Duration: One week

EXAMPLE PROGRAMME 6:

- Programme objective: STEM exploration (Maths and Computer Science). Inspiring young students to explore the world of maths and computer science in a fun and interactive way.
- Number of students: 10
- Student age group: 12 years (available to other age groups)
- Location: UK school site
- Duration: 2 consecutive weekends
